

# Louis Loon

## Barenaked Ladies

Dive down, dive down  
Into the cool green water  
Swim around, swim around  
By the fish and otters Louis Loon  
Louis Loon Flap your wings, flap your wings  
you're picking up speed  
Soon you'll spring, soon you'll spring  
High above the trees June the beaver  
Below you'll leave her  
Gnawing on sticks, gnawing on sticks  
With another dam to fix  
Louis Loon She hears your song  
Echoing over lakes and hills  
Lonely and long  
Sometimes it's high,  
sometimes with a trill Wherever you are  
You are admired from afar  
But just around the bend  
You can always call your  
friends, call your friends Splash, splash, splash, splash  
Come on in and land  
In a flash, in a flash  
you're under water again  
Looking to see when you  
surface where you'll be  
Won't you stay? Won't you stay?  
Your friends want to play  
Won't you stay? Won't you stay?  
Your friends wanna play Won't you stay? Won't you stay?  
Your friends wanna play  
Won't you stay? Won't you stay?  
Your friends want to play Won't you stay? Won't you stay?  
Your friends wanna play  
Won't you stay? Won't you stay?  
Your friends wanna play
