

Louis Loon

Barenaked Ladies

Dive down, dive down
Into the cool green water
Swim around, swim around
By the fish and otters Louis Loon
Louis Loon Flap your wings, flap your wings
you're picking up speed
Soon you'll spring, soon you'll spring
High above the trees June the beaver
Below you'll leave her
Gnawing on sticks, gnawing on sticks
With another dam to fix
Louis Loon She hears your song
Echoing over lakes and hills
Lonely and long
Sometimes it's high,
sometimes with a trill Wherever you are
You are admired from afar
But just around the bend
You can always call your
friends, call your friends Splash, splash, splash, splash
Come on in and land
In a flash, in a flash
you're under water again
Looking to see when you
surface where you'll be
Won't you stay? Won't you stay?
Your friends want to play
Won't you stay? Won't you stay?
Your friends wanna play Won't you stay? Won't you stay?
Your friends wanna play
Won't you stay? Won't you stay?
Your friends want to play Won't you stay? Won't you stay?
Your friends wanna play
Won't you stay? Won't you stay?
Your friends wanna play
