

# Danse (feat. Dev)

## Mia Martina

Tell me your secret's my weakness  
I'm only here for the weekend  
I already got you thinking, thinking  
Like a wifey, husband  
She never broke it  
Wants me to trust me()  
I'll be the best thing you ever had  
You know I'm good but I've gone bad  
You know I shoulda but I know I can  
Under the moon, grab my hand, hand And let's dance, put you in a trance  
Like you were my man, like we was in France  
Let's dance, put you in a trance  
Like you were my man, like we was in France  
By the way I'm really  
Tranquila, vito  
Bonita, moves real slowly  
dance You and me, we are together  
Forever having fun, having  
Can't stop moving til it's over  
Move your body  
Having fun, having fun(1)  
When the music starts to play  
We can dance the night away  
I won't let you get away tonight  
Once your body starts to move  
I'm gonna let go of you  
There's just one thing left to do tonight  
(2)  
Je veux danse... Danse  
Je veux danse... Danse  
Je veux danse... Danse y on danse  
Danse y on danse  
Danse y on danse y on danse y on danse y on  
Danse danse danse danse  
Je veux danse avec toi  
Je veux danse avec toi I know this love will last forever  
Us together  
It was fun, it was fun  
Racing with the time and  
Til the morning  
It was fun, it was fun(1)  
When the music starts to play

We can dance the night away  
I won't let you get away tonight  
Once your body starts to move  
I'm gonna let go of you  
There's just one thing left to do tonight(2)  
Je veux danse... Danse  
Je veux danse... Danse  
Je veux danse... Danse y on danse  
Danse y on danse  
Danse y on danse y on danse y on danse y on  
Danse danse danse danse  
Je veux danse avec toi  
Je veux danse avec toi Danse y on danse y on danse y on danse y on  
Danse danse danse danse(1)  
When the music starts to play  
We can dance the night away  
I won't let you get away tonight  
Once your body starts to move  
I'm gonna let go of you  
There's just one thing left to do tonight(2)  
Je veux danse... Danse
