Summertime

Citizen Cope

From the hot to cold, spring to the fall
You and I was meant to be together in love
Something 'bout a wound down in my soul
Something on my mind easy be told3 steps, 3 steps behind these 2 hands
These 2 hands of mine

You've got that 1 thing that can make a man blind And grow in my past fameIn the summertime, in the wintertime

You talk to us, you talk to us In the summertime, in the wintertime

You talk to us, you talk to us

In the summertime, in the wintertime

You talk to us, you talk to us

In the summertime, in the wintertime

You talk to us, you talk to usFrom the hot to cold, spring to the fall

You and I was meant to be together in love

Something 'bout a wound down in my soul

Something on my mind easy be told3 steps, 3 steps behind these 2 hands

These 2 hands of mine

You've got that 1 thing that can make a man blind And grow in my past fameIn the summertime, in the wintertime

You talk to us, you talk to us

In the summertime, in the wintertime

You talk to us, you talk to us

In the summertime, in the wintertime

You talk to us, you talk to us

In the summertime, in the wintertime

You talk to us, you talk to us
