

# Before the Words

## My Brightest Diamond

before the words there was the voice  
before the verse there was the sound  
before the form there was the music  
    before the pen and paper  
there was the hoo hoo hoo hoo hoo  
    before we sing we take in breath  
    imagine fire inside our chests  
then give it out together with one  
    hoo hoo hoo hoo hooooo  
        when we were young  
        when we were young  
        we heard our mothers  
        when we were young  
        when we were young  
we heard the beep beep beep beep  
        when we were young  
        when we were young  
        we heard our mothers  
        when we were young  
        when we were young  
we heard the beep beep beep beep  
before the words there was the voice  
before the verse there was the sound  
before the form there was the music  
    before the pen and paper  
        there was the sound  
        there was the sound  
        the sound  
wooo wooo wooo wooo  
    when we were young  
    when we were young  
    we heard our mothers  
    when we were young  
    when we were young  
we heard the beep beep beep  
    when we were young  
    when we were young  
    we heard our mothers  
    when we were young  
    when we were young  
we heard the beep beep beeeep

WOOO WOOO WOOO
