

Imperfection (feat. Yungen, Fuse ODG & Sneakbo)

Tinchy Stryder

We rise and we fall away
We hung up then we call away
Leave out only to miss you today
We cant have it all, oh yeah I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway I know it's far from perfect but lets try,
it'll be worth it
my love you deserve it
have a try, we can work it
I know it's far from perfect but lets try, it'll be worth it
my love you deserve it
have a try, we can work it
Originate from the east side of Africa but i met her on the west side of london
Me, i'm coming up from the west side of Africa
But I grew up on the east side of london, its aligning.
Finders keepers therefore losers weepers
she looking like oh my jesus
in your own class they may had the same teachers
Someone never change, forever remain cheaters
Madness, no, not this time
Knew it from the last time
looked in my eye, said there won't be a next time
Fall back, let me reclaim
Not selfish, no more me time I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway
I know it's far from perfect but lets try, it'll be worth it
my love you deserve it
have a try, we can work it
I know it's far from perfect but lets try, it'll be worth it
my love you deserve it
have a try, we can work it I'm talking now, nothing long, you're right, i'm wrong
Can't say it to your face but i'll say it in a song
Girl walks by i take a little glimpse
You'll be right by my side, giving me evil eyes
just what boys do, my excuse
My heart or my eyes? you pick, you choose, She said both you fool, infact thats rude.
The naked truth is i'm done with you

i'm like ouch, wow, slow that down
You can have it all, man, how's that sound?
Kiss then we make up, sexed while we wake up
Enter the cycle, no more break ups
I know you're feeling what im saying out there
Yeah, we made girls shed tears
Growing up, now we're evolving here. We rise and we fall away
We hung up then we call away
Leave out only to miss you today
We cant have it all, oh yeah I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway
I'm gonna love you anyway, Im gonna love you anyway I know it's far from perfect but lets try,
it'll be worth it
my love you deserve it
have a try, we can work it
I know it's far from perfect but lets try, it'll be worth it
my love you deserve it
have a try, we can work it
