## All or Nothing (feat. Axel Ehnström)

## **Lost Frequencies**

All or nothing Know what you're doing, but the clock is ticking Give it your best and then you're on to something And keeps on getting closer, closer All or nothing If it's silent and your head just sweatin Still not sure except the way you're heading And now it's getting closer, closerIf you go all in, you got a lot to lose, my friend All or nothing If you say all in, you don't get to choose again All or nothing All or nothing Take a step forward and you know she's looking Take a deep breath before you make it happen Keeps on getting closer, closerIf you go all in, you got a lot to lose, my friend All or nothing If you say all in, you don't get to choose again All or nothing All or nothing If you go all in, you got a lot to lose, my friend All or nothing If you say all in, you don't get to choose again All or nothing If you go all in, you got a lot to lose, my friend All or nothing If you say all in, you don't get to choose again All or nothing Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
