

Lights

The Summer Set

Just keep me close tonight
Under the covers
She said let's make this right
'Cause we're all we'll ever need
And we got time So keep the lights down low
Oh oh, you know, you do this to me
So speak up if you feel the way I feel
We never love like this Don't hurry just slow it down now
We got time to make our move
Don't hurry just slow it down now
Step back, oh, it's time we're wasting
(Oh oh)
You know, the cold night air
It's not the only thing making me shake
We could be anywhere
From L.A. lights to Arizona skies 'Cause we're all we'll ever need
The two of us on on the silver screen
Stay close, don't forget it, don't forget it
You've got me So keep the lights down low
Oh oh, you know, you do this to me
So speak up if you feel the way I feel
We never loved like this Don't hurry just slow it down now
We got time to make our move
Don't hurry just slow it down now
Step back, oh, it's time we're wasting
So keep the lights down low
Cause this is all we'll ever need
So keep the lights down low, oh oh Don't hurry just slow it down now
We got time to make our move
Don't hurry just slow it down now
Step back, oh, it's time we're wasting Don't hurry just slow it down now
We got time to make our move
Don't hurry just slow it down now
Step back, oh, it's time we're wasting
(Oh oh)
