## The Devil Named Music

## **Chris Stapleton**

We drove all night to Billings, Montana

Flew into Utah, slept there all day

I can't remember stopping in Denver

Yeah, I live my illusion that somebody needs me to playSometimes I'm drunk

Sometimes I'm stoned

And yes, I get tired of being alone

I miss my son

I miss my wife

But the devil named music is taking my life

Now I sold my soul a long time ago

I put it in a six string and a sad melody

And I'm sometimes a winner, most times a loser

If the crowd gets into it, it'll all feel the same way to meSometimes I'm drunk

Sometimes I'm stoned

And yes, I get tired of being alone

I miss my daughter

I miss my wife

But the devil named music is taking my lifeSometimes I'm drunk

Sometimes I'm stoned

And yes, I get tired of being alone

I miss my son

I miss my wife

But the devil named music is taking my life

Sometimes I'm drunk

Sometimes I'm stoned

And yes, I get tired of being alone

I miss my daughter

I miss my wife

But the devil named music is taking my life, yeah the devil named music is taking my life Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
