Into the Dark

Ben Lee

Feelin' Better Since I surrendered You can't Climb 'Till Your ready to fall You're not a land mine You're not a gold mine No you're not mine at allSo tell me baby Can you hear me? I sent a message out into the dark It's a mystery When you're near me I've gotta find my way to your heart I learnt my lesson First impressions More ofern right than wrong It's not a slow dance This modern romance Feels like we've already waited to longDon't worry baby That how is should be I sent a message out into the dark I'd rather talk to you About how it could be I've gotta find my way to your heartI was one of those breathing tornadoes But now I live at the eye of the storm And it's all faded Then since the separation Since I let your love keep me warm You tell me baby That you can feel me I sent a message out into the dark When I kiss you That's the real me I've gotta find my way to your heartSo tell me baby Can you hear me? I sent a message out into the dark It's a mystery When you're near me I've gotta find my way to your heart I've gotta find my way to your heart I've gotta find my way to your heart
