

# Captured (feat. Jim James)

## Gov't Mule

Never wanted to be swept away  
I thought I might lose myself  
Nobody told me there'd be music, sweet music  
Now I got that sinking feeling  
Though I try to brace myself  
I can feel me start to surrender, sweet surrender  
Everything I needed to remember  
Everything I needed to forget  
When I see you smile, I am a child  
Im captured  
Never once thought I could love someone  
More than I love myself  
Nobody told me about forgiveness, sweet forgiveness  
Now were waving our flag in the air  
The one we sewed together  
We planted our seeds in the ground  
Roots are growing  
Everything I needed to remember  
Everything I needed to forget  
When I see you smile, I am a child  
Im captured  
Oh Im captured, oh yeah  
Yes Im captured  
Oh Im captured
