

# Night Crawler

## Judas Priest

Howling winds keep screaming 'round  
And the rain comes pouring down  
Doors are locked and bolted now  
As the thing crawls into townStraight out of hell  
One of a kind  
Stalking his victim  
Don't look behind youNight crawler  
Beware the beast in black  
Night crawler  
You know he's coming back  
Night crawler  
Sanctuary is being sought  
Whispered prayers our last resort  
Homing in its cry distorts  
Terror struck they know they're caughtStraight out of hell  
One of a kind  
Stalking his victim  
Don't look behind youNight crawler  
Beware the beast in black  
Night crawler  
You know he's coming back  
Night crawlerAs night is falling  
The end is drawing near  
They'll hear  
Their last rites echo on the wind  
Huddled in the cellar  
Fear caught in their eyes  
Daring not to move or breathe  
As the creature cries  
Fingernails start scratching  
On the outside wall  
Clawing at the windows  
Come to me it calls  
Atmosphere's electric  
As it now descends the stairsHiding in the darkness  
Is so futile from its glare  
Death comes in an instant  
As they hoped it would  
Souls ascend to heaven  
While it feasts on flesh and bloodStraight out of hell  
One of a kind  
Stalking his victim

Don't look behind you Night crawler  
Beware the beast is black  
Night crawler  
You know he's coming back  
Night crawler Beware the beast is black  
Night crawler  
You know he's coming back  
Night crawler  
He's gonna get you  
He's gonna get you  
Beware of the beast  
Night crawler  
Beware of the beast  
He's gonna get you  
Night crawler  
Straight out of hell  
Beware of the beast  
He's gonna get you
