

# Wiseblood

## Corrosion of Conformity

When I was young  
Some wise fool told me  
Live and learn  
But nothing comes for free  
So I did what I could  
When I was able  
To keep the truth  
Away from our table Young blood creepin'  
What you need?  
Wiseblood shake him down  
To his knees guaranteed  
Well I never walked  
I just learned to fly  
And your heaven or high  
Was the way I stayed alive  
I've seen them devils  
Pound our bible  
You saints and sinners  
Are both my rival Young blood creepin'  
What you need?  
Wiseblood shake him down  
To his knees  
Aim to please-Solos-  
Well there's blood on the street  
But there's nothin to steal from me  
Cause I walk alone  
But at least I walk for free  
I listen to few and I'm fueled by fire  
Guess now I'm old and now much wiser Young blood creepin'  
What you need?  
Wiseblood shake him down  
To his knees guaranteed
