

# Wake & Bake (feat. Iamsu! & Berner)

## Collie Buddz

I'm laughing at 'em  
Just tryina roll  
Can't roll a spliff for life  
Truth be told  
I say good morning to you  
Wassup?

There's coffee in the kitchen, pour me a cup  
Two sugars and I wake & bake  
Two sugars and I wake & bake  
Two sugars and I wake & bake  
Two sugars and I wake & bake  
Stuff to drank with my shoe lace  
I'm on the ground straight making cake  
I smoke some to get mama straight  
A good look I can't forget your face  
Really when she coming through my place  
Send a text and said I'm on my way  
Getting laid I think that you should stay  
Two sugars and I wake & bake  
But this time it's the very next day  
From my window you could see the whole bay  
They can't do it like me no way  
Three's up for that ace be pating  
And it's rich city nigga not v8  
Where we need our money on time not late  
And we on the ground like everyday  
So it's two sugars and I wake & bake  
That's what helps to relax my mind  
Everything in slow motion, happening in due time  
You not about the light man you lying  
Rastafa right my mind is on Zion  
I be so high fresh cloudses I'm climbing  
30 000 feet yeah that's my climate  
Two sugars and I wake & bake  
Two sugars and I wake & bake  
Two sugars and I wake & bake

Two sugars and I wake & bake  
Smoke 2 joints to the face, I love the way it taste  
Man I'm on, I blow og, lemon tree  
The joy's on me, man it's too damn strong  
Look I don't really share  
And I don't really care  
For smell like weed when I put it in the air

I'm a Californian bear, west coast cure  
Fresh west joint, got me stuck on the chair  
My stash look mean, my glass so clean  
Roll big joints while ash on lean  
Yeah me and sookie stoned and laugh  
And the S classe benz on hash  
Plant the seed let the weed grow  
Hit the crowd burn an ounce up  
I'm on diesel, I'm in NY  
Boy I been high, in the club, 24 prerolls  
Oh my don't blow my high  
Me and Cali both know why  
That got herb why need to be free  
So vote legal in 216  
Wake up, take a hit like me  
Two sugars and a black coffee  
Yeah, I get stoned in the AM  
Fuck the club, roll up and stay in  
Two sugars and I wake & bake  
Two sugars and I wake & bake  
Two sugars and I wake & bake  
Two sugars and I wake & bake
