

# Go On

## George Strait

I'm so sorry, I keep interrupting, what were you gonna say?  
You caught him cheatin', I don't blame you for walkin' away.  
I know where you're comin' from, it sounds like where I've been  
Oh, there I go interrupting your story once again  
Go on, go on, you were sayin' how a fool can  
only fool you so long  
It's true, it's so true when they do you like that  
What else you can do but go on.  
Our conversation won't change nothin', but it's sure nice to talk  
With somebody who's been cut out of the same ol' cloth  
You know how you said happiness can't be found lookin' back  
If you don't mind, maybe we can talk a little more about that.  
Go on, go on, you were sayin' this is better than sittin' at home  
It's true, it's so true when they do you like that  
What else can you do but go on...  
Even when you see no reason to  
Don't wait to live life 'cause it won't wait for you  
Go on, please go on, you were sayin' what don't kill us only makes us strong  
It's true, that's so true when they do you like that  
What else can you do but go on.  
Just go on.  
Life goes on... and on.
